

VIDEO PHONE AND CCTV SECURITY SYSTEM TRAINING KIT

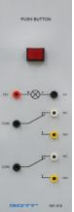

Model Number : GOTT-VPHS-591

DESCRIPTION

This Video Phone and CCTV Security System Training Kit is designed for learning CCTV equipment. It can prevent an accident that may cause in the residence, building or factory. It is designed for student to learn about the domestic and commercial applications of these systems. In the program, the students are able to learn about the system components, application placement of cameras and sensors, wiring and operation of the systems with basic troubleshooting. All components are fixed to our panel mount frame system. A three level panel frame is included. All components can be easily placed on the frame in various configurations and then connected to each other. Manuals are included for student experiments.
